Mother Mary come to me
In my lover's room I'm free
Scripture ripped her from my arms
But my girl she means no harm

Promise we'll keep mighty still
Father Brian climbs our hill
Asks us why we're wrapped in wool
Laughing like we're wagging school

My cup runneth over but I'll have another please
I'll only take a lover of she walks all over me

My cup runneth over but I'll have another please
I'll only take a lover if she walks all over me
There's seven deadly sins but somehow all I got was greed

Yes I see the warnings
But I shall never heed

Sit out parents down to talk
Quote thy passage state our faults
If God created man for me
Why am I not quite a "she"

Yet I still kneel and I still pray
I still hear the willows sway
I still know how spirits talk
Hold my hand on all my walks

My cup runneth over but I'll have another please
I'll only take a lover if she walks all over me

My cup runneth over but I'll have another please
I'll only take a lover if she walks all over me
There's seven deadly sins but somehow all I got was greed
Yes I see the warnings
But I shall never heed

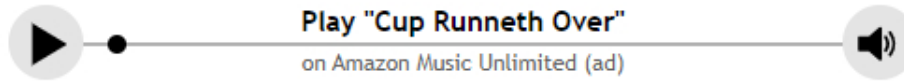

Church bell tolls don't signal love
All I hear is Christ above
Taking notes on all my crimes
I drink ale when God made wine

Pater noster, qui es in coelis, santificetur nomen tuum
Adveniat regnum tuum, fiat voluntas tua

My cup runneth over but I'll have another please
I'll only take a lover if she walks all over me
There's seven deadly sins but somehow all I got was greed
Yes I see the warnings
But I shall never heed
